**Join the Crew**

***Accepting Applications***

***May-June 2034***

**Who can apply?**

Everybody who meets the requirements of the L.E.A.P. (Leave-EARTH-Astronaut-Program) is encouraged to apply. Application from woman and various genders are strongly encouraged.

The four best applicants will finally join our first flight in the midst of summer with the mission to follow the Space Kraken through the still open wormhole. Based on the critical economy status we cannot ensure if there will be following flights possible yet. All chosen astronauts will be printed, shown, and published in the official crew sheet at the end of the recruitment process. The L.E.A.P. is not in the position to guarantee a flight even for the selected individuals.

**What are the language requirements?**

Applicants must be able to write and speak English very well. Good knowledge of German and Russian is optional.

**What documents are required to apply?**

In this first step you need to answer all questions listed on the bottom, and a photo. The application can be send via email. All further documents will be checked in phase II.

**How to upload all the necessary documents?**

Our stuff will contact you for registering and approving your documents. If you having difficulties in getting an EU-CENTRAL passport please forward that info at the moment we contact you. Applicants who living outside Europe will need to take care to apply for an EU-CENTRAL VISA themselves.

**What are the nationality requirements?**

Your training, skills and motivation is crucial but we do not exclude based on nationalities even if you are an inhabitant of a country, we are actually in war with.

**Is there an age limit?**

Yes, we only accept applicants younger than 50 or younger than 70 in case of an actual running genetical rejuvenating program.

**What health and physical condition is required?**

You should be able to accomplish the U6-police or M2-degree-military fitness test. All psychological and medical parameters are tested during phase III. Applicants who will not satisfy our requirements will be rejected.

**What are the eyesight requirements to apply?**

If you cannot absolve the pilot eye test a cybernetical eye-surgery will be weighted up but will be counted as a little disadvantage in our internal ranking system.

**What are the height requirements to apply?**

Based on suites and spaceship layout we have to reject any applicants taller than 2m or smaller than 1,5m.

**Is there a standard IQ requirement?**

At phase II you will get a free invitation of an online IQ test which will be a live session and take about 1 hour. The result will be influencing your score. In phase III we will initiate a second more detailed IQ test.

**How to track the application after on?**

Based on the enormous number of applicants a tracking is not possible.

**Is there a deadline for applications?**

We only accept applications until June, 31st 2034.

**What happens to candidates that reach phase III but are not selected as top 4?**

A few applicants will be join our astronaut reserve. We will inform you in this case.

**Why now?**

Please realize, maybe this is the last chance to leave earth. Relaying to actual studies, the economy and environment of earth will not be able to grant space travel longer than 2-3 years from now on. We know it's hard to leave your beloved friends and family beyond, but survival of mankind has absolute priority in our situation.

**How long does the astronaut training take?**

Our astronaut training consists of a time optimized, all in one program including basic-, tech-, social-, and weapon training. Caused by the unstable situation worldwide we do not plan to invest more than 3-4 months in training and then launch as soon as the spaceship is ready.

**When will we return?**

It's not planned to return to earth but you may settle down on another earth like planet. The change that new developed technologies will safe humankind's survival on earth is estimated as minimal.

**What are long time effects of low gravity to a human's body?**

Bone density and mass also as muscle mass usually decrease but we will use the newest system to slow down and stop this issue. You will need to workout at least 2 hours a day in space.

**I'm a pacifist can I apply?**

We do not know what you will find on the other side of the wormhole. Survival of your ship and crew has priority so we must be sure you will do everything to guarantee your survival. If you are not willing to use lethal force against aliens or humans in case of emergency, you are not qualified to join this flight.

**Please send your answer to all following questions and also include a current ID photo via email to: [CONTACT@SPACEKRAKEN.DE](mailto:CONTACT@SPACEKRAKEN.DE)**

**Do not erase the questions, and write your answer under each of them.**

**Question 1: Please name your body size in cm, your eye color and gender:**

**Question 2: Please note your nickname:**

**Question 3: Tell us about yourself and why you are especially qualified for this mission:**

**Question 4: Tell us about your motivation:**

**Question 5: Please name your strongest skills:**

**Question 6: Please name your weakest skills:**

**Question 7: Are you willing to train harder than ever before in your life?**

**Question 8: Are you willing to do anything required to guarantee the survival of the rest of the crew?**

**Question 9: Do you have to leave somebody behind on earth and how do you think you can handle this situation?**

**Question 10: What is your biggest fear if you are thinking about your long space flight into the unknown:**

**Question 11: Help us to reach more potential applicants by telling your friends about this project. Please note the nicknames of the applicants you are recruited. Each entered nickname will boost your ranking by 1 point and increasing your chance to be part of the crew dramatically!**

If you recruit more members after transmitting your application, please let us know by sending us an email containing the added nicknames.

Thank you for being honest.
